

Telecommunications Experience

OUR INDUSTRY SPECIALISTS

Telecommunications companies face unique challenges and regulatory requirements. The highly regulated nature of this industry requires an accounting and consulting firm that understands the industry and can provide the tax, assurance, and business consulting services needed to thrive in a changing business environment. To learn more about how we can help, contact one of our industry specialists:

ABOUT OLSEN THIELEN

- Since 1921, Olsen Thielen has been providing full-service expertise with timely personal service. As a trusted advisor, we help navigate change with strategies and financial plans for the future.
- Over 90 employees including 36 audit and accounting staff, 28 tax staff and 10 telecom consulting staff
- We serve over 250 telecommunications companies and their subsidiaries including ILEC, CLEC, Cooperatives, Wireless, and Internet providers.
- We conduct ourselves with the highest standard of ethics and integrity:
 - Committed to building long-term relationships; and,
 - Value teamwork, mutual respect, and open communications with staff and clients
- Olsen Thielen is large enough to have the expertise, but still small enough to maintain a personal relationship with clients
- “People First” philosophy which promotes a work/family balance

WHY OLSEN THIELEN?

- Every member of our professional team working on your financial statements and tax returns has telecommunications engagement experience and understands the telecommunications industry and staff is required to attend continuing professional education courses including specialized utility training
- We have knowledge and experience with cooperative taxation and capital credit issues, and we work closely with you to minimize the taxes you pay
- Our Telephone Advisory Group consults specifically on telephone company issues including NECA settlements, rates, and tariffs reporting, wireless negotiations, CLEC feasibility studies, and regulatory reporting to State and Federal regulators
- Active member of the Telergee Alliance, NTCA, and numerous industry associations

THE OLSEN THIELEN DIFFERENCE

Identifying a professional partner that not only has the experience to deliver high-quality services but shares your values as well, will enhance the final results. Olsen Thielen offers a rare combination of experience, specialized skills, and principles, in addition to a solid understanding of the pressures and requirements affecting your Company.
