

Accounting For OPTOMETRISTS

Industry Expertise

Our optometry industry specialists help practices stay compliant, run efficiently, and grow profitability, offering expert advice and planning support every step of the way.

Supporting a Range of Practices

- Private practice clinics
- Specialty clinics
- Retail/corporate-owned clinics
- Multi-location and group clinics

Expertise That Drives Results

At Olsen Thielen, our professionals provide optometry clinics with the expertise and support needed to navigate today's industry challenges and achieve long-term success.

Beyond traditional accounting and tax services, we provide strategic guidance in revenue growth, operations, and financial planning. Our services are tailored to your unique needs. As your trusted advisor, we help identify opportunities for improvement, keep you informed on regulatory changes, and implement forward-thinking solutions for your business and personal challenges.

More Than Just Tax & Accounting

- Compensation models, bonus planning, and consultation
- Retirement and benefits planning
- Purchase and sale of your practice including:
 - Evaluation and consultation regarding options
 - Due diligence
 - Deal structure and tax planning
- Business valuations
- Succession planning
- Business entity selection for tax purposes
- Tax preparation and planning
- Financial statements
- Deferred compensation plans
- Buy-sell planning
- Client Advisory Services (CAS)
