

Business Valuation & TRANSACTION ADVISORY

Expertise That Drives Results

Olsen Thielen's Business Valuation and Transaction Advisory Services (TAS) group provides comprehensive Business Valuation services for a variety of needs and purposes, as well as Transaction Advisory support both pre and post-close. We analyze the economic, industry, and competitive environments in which our clients operate, assessing a company's strengths, strategic positioning, and competitive advantages to deliver conclusive, credible, and robust valuation reports that will stand up to the scrutiny of litigation or the IRS. Our Transaction Advisory Services range from strategic planning and pre-deal valuation support to working capital analysis for purchase agreement targets and post-deal financial reporting support.

Our credentialed specialists are certified by the American Institute of Certified Public Accountants (AICPA) and the American Society of Appraisers (ASA), holding Accredited in Business Valuation (ABV) and Accredited Senior Appraiser (ASA-BV) designations, and are qualified to provide expert testimony.

"The OT team played a key role in the success of our merger...the complex projections and valuations that the OT team assisted with were critical to objectively confirming the plan."

Jason Dale, CEO
Cooperative Network Services
