- Foundations
- Charities
- Religious entities
- Business leagues
- And more

Understanding Your Mission and Challenges

At Olsen Thielen, we understand that not-for-profits face the same challenges as any business—managing resources, growing services, staying financially strong, and maintaining accountability. Since 1921, we've built lasting partnerships with organizations across the Midwest, offering practical guidance rooted in deep industry knowledge and active community involvement.

We're large enough to offer full-service expertise, yet small enough to deliver personalized, proactive guidance. Our goal is to help you operate more efficiently, grow profitably, and make confident decisions.
